DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a use of a specific compound for textiles.

Group II, claim(s) 8 and 9, drawn to a method of protecting human skin.

Group III, claim(s) 10 and 11, drawn to a method of protecting textiles against fading.

Group IV, claim(s) 12 and 13, drawn to a method of increasing UV protection factor.

Group V, claim(s) 14-16, drawn to a laundry detergent.

Group VI, claim(s) 17 and 18, drawn to a compound and method of making said compound.

Group VII, claim(s) 19, drawn to a textile with said compound.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The methods of using the specified compound are very different from each other as well as are the product made with the compound. A method of protecting human skin is very different from a method of protecting textiles from fading being that each method can be performed by various compounds and compositions, other than the compound and compositions recited in the instant application. Further a laundry detergent is very

different from a textile with a specific compound on it. Therefore, the invention recited in this restriction requirement lack the same or corresponding special technical feature required to examine all the claims together.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
